DESIGN & PRODUCTION BY

BORAÇELİK

DESIGN

Epilux is a series of free-standing elements in different shapes and sizes that can be adapted to create different areas and uses of products to be displayed. It is designed for the efficient use of the space preserving the design integrity of the life and the environment.

Epilux series is designed with the aim of providing a more organic and flexible presentation. Different sizes and shapes allow for the creation of various architectural design integrations. Epilux Series, which includes the presentation of a wide range of products such as ceramics, the most basic and most popular in ceramic and in the form of a product of exceptional dimensional values, the need for a different material and can be easily installed.

Epsilon series consist of two main elements as skeleton frames and drawers that can be adapted to many different areas and sizes of products to be displayed. It is designed for the effective use of the area preserving the design integrity of the fair and showroom areas. Epsilon series which is designed with the aim of producing a more organic and modern presentation, exhibition areas provide effective use of space by preserving architectural design integrity. Epsilon Series, which enables the presentation of a wide range of products such as ceramic, tile, stone, book and shelf products in square and rectangular form. It is produced as completely disassembled without the need for a different material and can be easily installed. Epsilon, which also aims to present large-scale products in an aesthetic way, is produced from two main durable materials as wood and metal.

Epsilon consists of 3 main groups as; Gama A consisting of tables, chairs and drawers, Gama B consisting of metal frame, which is a group product and used for placemaking, Gama C that allows the presentation of armature products.

GAMA A

Consisting of a well-equipped table, chair and drawer, Gama A system aims to expose products

Can be painted indifferent colors
Custom made display units according to the location

BE001V01

- 146x97x74 cm frame
- 120x120 cm drawer,
- 6 horizontal frame, 70 kg
- Cradle on top 30*60 cm 12 panels

BE001V02

- 240x97x74 cm frame
- 120x120 cm drawer
- 9 horizontal frame, 70 kg
- Table top adjustable LAM, LACQUER, GLASS, EVA

BE001V03

- 240x97x74 cm frame
- 120x120 cm drawer,
- 6 horizontal frame,
- 70 kg with cradle on top 30*60 cm 12 panels
- Table top adjustable LAM,LACQUER,GLASS,EVA

BE001V04

- 290x97x74 cm frame
- 120x120 cm drawer,
- 6 horizontal,3 horizontal frame
- 70 kg with cradle on top 30*60 cm 12 panels
- Table top adjustable LAM,LACQUER,GLASS,EVA

BE001V05

- 400x97x74 cm frame
- 120x120 cm drawer,
- 9+9 horizontal frame, 70 kg
- Table top adjustable LAM, LACQUER, GLASS, EVA

BE010V01

- 35x68x35 cm frame stool

GAMA B

Designed to create a living space within the exhibition area and to display large-scale group products such as bathtubs and shower cabinets.

Can be painted indifferent colors
Custom made display units according to the location

BE002V01

- 146x256x71 cm frame
- 60x120 cm drawer, 6 panels 70 kg
- MDFLAM technical wall with channel
- 35x35 cm mosaic hanger 20 pcs

BE002V02

- 240x256x71 cm frame
- 60x120 cm drawer, 6 panels 70 kg
- 10x2 panels 60x120 cm pulling
- MDFLAM shelf
- Raw chipboard wall
- 65x65 cm front panel(digital print, tile glue,)

BE002V03

- 240x256x71 cm frame
- 60x120 cm drawer, 18 panels
- 60*60 cm cradles 10 panels
- MDFLAM technical wall with channel
- 35x35 cm mosaic hanger 20 pcs
- Adjustable shelf for small pieces

BE002V04

- 240x256x71 cm frame
- 120x120 cm drawer
- Cradle on top 30*60 cm 10 panels
- 60*60 cm cradles 10 panels
- MDFLAM technical wall with channel
- Adjustable shelf for small pieces

BE002V05

- 240x240x71 cm frame
- OSB wall and flooring for tile covering
- LED lightening system
- Raw chipboard/laminated chipboard,
- Raw MDF/MDFLAM optional

BE002V06

- 275x263x84 cm frame
- OSB wall and flooring for tile covering
- MDFLAM technical wall with channel
- 60X60 cm cradles 8 panels
- Floor panel 121x60/60x60 cm
- LED lightening system

BE002V07

- 275x263x84 cm frame
- OSB wall and flooring for tile covering
- 60X60/120x120/60x120 cm cradles
- LED lightening system

BE002V08

- 240x240x240 cm frame
- OSB wall and flooring for tile covering
- Raw chipboard/laminated chipboard,
- Raw MDF/MDFLAM optional

BE002V09

- 275x263x190 cm frame
- OSB wall and flooring for tile covering
- LED lightening system
- For tiles, wood, visuals or didactic panels
- Raw chipboard/laminated chipboard,
- Raw MDF/MDFLAM optional

GAMA C

Model is a system where you can display armature and shelf products, can be adapted to any desired size and is demounted like all other Epsilon series.

BE003V01

- 200x256x36 cm frame
- Available in different size

BE003V02

- 281x280x40 cm frame
- Available in different size

BE003V03

- 450x250x40 cm frame
- Available in different size

BE003V04

- 500x280x60 cm frame
- Available in different size

BE030V01

- 550x280x50 cm frame
- 360° rotating MDFLAM panels for accessories

BE031V01

- 95x330x6 cm frame
- For tiles from 120*240 height
- Adjustable frame for tiles of 100, 120 or 160 cm

BE030V02

- 100x260x40 cm frame
- 2 pieces drawer

BE030V03

- 200x70x56 cm frame
- Available in different size

BE030V04

- 100x260x40 cm frame
- 2 pieces drawers

BE030V05

- 200x128x60 cm frame
- 4 pieces drawers

BE030V06

- 240x90x60 cm frame
- Available in different size

BE030V07

- 240x90x60 cm frame
- Available in different size

BE030V08

- 125x25x50 cm frame
- 60*60 cm cradles 5*2 panels

BE030V09

- 135x100x96 cm frame
- 10x2 panels 60x60 cm pulling
- Top cradles 10 grooves
