About Us Founded in 1976, Bora Çelik is a made-to-order designer, manufacturer supplier of showroom display panels, situated in Eskisehir, Turkey. Our main product lines consist of, but are not limited to, ceramic display cabinets, display panels, door displays, tile display stands, along with parquet, tile, stone, marble, mosaic displays. We also design and manufacture commercial areas and showrooms that cater to the ceramics and bathroom industries. Our strength comes from our custom design and unique production capabilities, ensuring that both our production and supply organizations are flexible enough to manufacture and deliver any volumes, in short, we can and will deliver any amount of product within the timescale required, without any order restrictions, with branding and packing being decided by our clients. Our highly skilled design team will ensure that all aspects of quality, dimensions, and general design-build meet your expectations, whilst providing a tailored and cost-effective solution to your needs, when productivity is essential. Bora Çelik is here for you, as a trustworthy supplier when you require comprehension, communication, research, and service.

Epsilon Series consist of two main elements as skeleton frames and drawers that can be adapted to many different areas and sizes of products to be displayed. It is designed for the effective use of the area preserving the design integrity of the fair and showroom areas. Epsilon series which is designed with the aim of producing a more organic and modern presentation, exhibition areas provide effective use of space by preserving architectural design integrity. Epsilon Series, which enables the presentation of a wide range of products such as ceramic, tile, stone, book and shelf products in square and rectangular form. It is produced as completely disassembled without the need for a different material and can be easily installed. Epsilon, which also aims to present large-scale products in an aesthetic way, is produced from two main durable materials as wood and metal.

Bora Çelik, which is renewing and developing itself day by day with the products it produces on a national and international scale and global projects, became the owner of the title of "Design Center" by receiving the incentive support of the Ministry of Science, Industry, and Technology to bring the country's economy to an internationally competitive structure.

Who are we Bora Çelik's key success comes from its dynamic, innovative, entrepreneur structure and harmony energy in its own up to now and so it has been. Our company has an 18.000 m² closed area in Eskisehir. Bora Çelik architectural retail design concentrates on exhibition design as converted developed notions for retail strategy into different space type segmentation and architectural structure by creating concept designs.

What we are doing
